IMAGINATION is a siren whose playful song leads the mind far from truth. Here is a story about a cow; perhaps you have heard it before: A man had a farm; he planted popcorn. He filled the barn with popcorn. The barn caught fire. The corn began to pop. It burst the barn and spread over the fields and a near-sighted cow thought the popcorn was snow and froze to death. The cow made a mistake, but the effect was just as bad. Now don't you make a mistake by imagining that

is a little "too tony," for on the contrary, if you'll give him a call, he will use you **WHITE** and give you prices **WAY** down.

SCHOOL REPORT.

FOR THE YEAR ENDING FEBRUARY 15, 1894.

The annual report of your schools is respectfully submitted by the school board:

At the annual district meeting held in March 1893, Jasper P. George was elected a member of the school board for three years. At the organization of the board William F. Conner was elected president, Edward P. French, secretary, and Jasper P. George, treasurer. Soon after the organization, Mr. Conner resigned, because of his removal from the town, and the remaining members elected William S. Manning to fill the vacancy, as provided by law.

The schools, for convenience, were divided into three sub-districts, Mr. Manning having special charge of Nos. 2, 9 and 10, Mr. French, Nos. 3, 4, and 5, and Mr. George, Nos. 1, 6, 7 and 8, and in addition to this special supervision, each member of the board has been expected to visit all the schools at least once during the year.

SCHOOLS.

It was intended that there should be three terms of ten weeks each, in all the different schools, and that plan was followed, except in No. 7, where, because of a short spring term, nearly four weeks of school are yet due the pupils.

We think that the schools have made good progress in their studies, as a whole, and more than ordinary success has been attained in several of them.

We feel certain that a high grade grammar school, situated at some accessible point, for the benefit of the more advanced pupils, would be greatly to their advantage, and consequently be a benefit to the whole town.

TEACHERS.

We have employed sixteen different teachers during the year, and of these, four have taught the same school throughout the year—Misses Emerson, Way, Holbrook and Terrill; while Miss Parkhurst has taught the entire year but in differ-

ent schools. One of the teachers, Mr. Davies, taught for the first time, and was quite successful as a teacher.

There have been more changes in teachers during the year than is beneficial for the pupils; frequent changes in teachers retard progress in the studies, as much time is lost in the mutual adaptation of teachers and pupils.

SCHOLARS.

There have been enrolled upon the school registers 192 names; 92 boys, 100 girls; 1 less than were enrolled last year. There have been six pupils in the district who have not been absent during the year; they are Alice L. Barnard, Grace M. Lane, Abbie J. Burns, Flora E. Haselton, Olive A. Busiel, Winifred J. French.

In the main the scholars have seemed to appreciate their school privileges and made good use of their opportunities, especially has this been true in some of the schools.

It appears as if they had fully maintained the acquired standard, and have in many cases, made a decided advance.

The diminishing number of pupils in some of the schools, brings to the attention of those interested, the advisability of maintaining fewer, and larger, and consequently better schools. There can be no doubt that to a certain limit, numbers increase the efficiency and progress of a school—not to mention the less expense of maintaining them.

SCHOOL HOUSES.

In accordance with the recommendation of the board of last year, the district voted to build a new shed at No. 7.

There being a lack of land upon which to place it, a small plat adjoining was purchased by the town, the house moved back and a new part for use as wood and clothing rooms, built at the front. It now is in as good condition as any in town.

Considerable repairs will be needed at No. 1 and 6; a new fence at No. 4, to retain a title to the land upon which the house stands, and Nos. 9 and 10 need painting.

BOOKS.

The readers, which have been in use for several years, became too familiar to the scholars for their profit, and we have changed those in use for a series of the New Franklin Readers, greatly to the delight of both teachers and pupils. A series of Temperance Lesson Manuals; also a temperance catechism, for the "better study of the nature and effects of alcohol and

narcotics upon the human system," have been introduced into the schools during the past year, but without cost to the district, they being gifts of the local Women's Christian Temperance Union.

FINANCES.

The amount paid for fuel the past year has been unusually large, owing to a complete absence of any wood in the sheds at the beginning of the year, and the unusual cold weather during the first term, when much fuel was necessarily used.

No doubt the cost of text books the coming year will be less than has been incurred during this year which includes the price of the new readers.

From the treasurer's report it appears that the whole amount expended for teachers, fuel and other necessary expenditures is \$2,355.20; the whole amount of school money was \$2,559.03; amount received for tuition, \$21.00, and the amount remaining from last year was \$46.11, making \$2,626.14 in all. The treasurer has now a balance of \$270.94 remaining in his hands.

We would recommend that the town raise \$500.00 or more extra school money.

PUBLIC LIBRARY.

At the annual town meeting held March 14, 1893, John A. Riddle, Jasper P. George and George M. Davis were elected as trustees of the library, to serve respectively one, two and three years, and it was voted to appropriate the sum of fifty dollars for the purchase of new books. With the amount appropriated, the trustees purchased seventy-six new volumes, which with three stray books belonging to the old library, added to the number at the last report, makes the whole number of volumes three hundred and twenty-one, and they were either on the shelves or accounted for at the end of the year.

Since the opening of the library, Feb. 16, 1893, one hundred and fifty-one persons have availed themselves of its privileges. Jasper P. George has continued through the year as librarian.

In the removal from the town of Dr. George M. Davis, the library enterprise lost one of its most staunch supporters, and the board of trustees, a most efficient member.

We hope that all the people of the town may so appreciate the advantages accruing from having a free public library, that with a liberal appropriation year after year, the trustees may be able to present a complete selection of attractive and instructive books.

We present the following catalogue, which with that found in the town report of 1893, will comprise a complete list of all the books now belonging to the library.

Respectfully,
JOHN A. RIDDLE,
JASPER P. GEORGE,
Trustees.
